Mysore 20 March 1951.

34

My dear Mr. Mallaraj Urs,

I trust that you were duly in receipt of the processed fruit and vegetable products which we sent to you on last Saturday. We trust that the cans and bottles opened to satisfaction and that the products were appreciated by His Highness and others concerned.

There is considerable scope for processed and preserved seasonal fruits and vegetables. If His Highness so desires it, we can process such products raised in palace orchards as are normally of short duration. If we could be informed in advance and the materials sent to us in time, we will do our best to assist with the processing.

2. There is one direction in which both you and the other Palace authorities could help me in connection with our work. Although I am now living in a Palace building, It is so far off for my work that I am not able to attend to anything that may arise in emergency. I cannot possibly come early in the morning or late at night.

I understand that the Palace authorities are generally agreeable to our Council renting "High View" on Yelwal Road as the residence of the Director of this Institute. Mrs. Irvine is now living there, but if it could be represented to her, she could kindly cooperate by exchanging her present residence for "Ram Mandir" or any other govt. Palace building. She may in fact find a good building quite near the Palace itself.

It is quite possible that the Government of India may themselves take up this subject, but in the meantime it would be most helpful if you could have an informal talk with His Highness and help us in the best possible manner. I am making the request in the interests of our work and I am hoping that

P.T.O.

it will not be difficult to make some arrangements along the lines that I have ~~indicated~~ suggested.

With greetings and best regards,

Yours sincerely,

Mahalingam

H.S.Mallaraj Urs, Esq., B.A.,
Assistant Secretary to the Personal
Staff of His Highness the Maharaja,
The Palace, Mysore.
